Into the Space

In March, we brought flowers into spaces in a more immersive way. Each project shaped by its setting, purpose and the people it was created for.

AN EVENING IN *Layers & Light*

Layered in deep tones, sculptural elements and cascading florals, this birthday setting came together through weeks of thoughtful collaboration- creating an unforgettable atmosphere.

WOMEN'S DAY BLOOM

For Women's Day, we curated a collection that celebrated the many expressions of womanhood.

Strong, graceful and beautifully unique. reflected through florals

For Holi, we designed bespoke hampers that captured the essence of the festival - vibrant, expressive, and full of life.

Festive Notes

Marking Gudi Padwa, we designed custom arrangements that blends tradition with a modern aesthetic.

It was our first time exploring this festival-brought to life through a client-led vision and thoughtful execution.

Thank You

for being a part of our blooming journey.
